Must See, Must Do, Must Have This Month.

EASTER CRAFT

Egg-Tastic!

Plan an egg-decorating party for the kids this month. These mod works of art will give them something to chalk about.

How-to: Ahead of time, spray or paint hard-boiled eggs with black chalkboard paint, and let dry. Then, cover the surface of each egg with any color chalk, and using a paper towel, gently rub off the chalk (so the designs will stay put). Let the kids go wild, using whatever chalk colors they want to draw fun pictures. Remind them to be gentle (and not eat the eggs)!

YUM!

Chicks on a Diet

Props for Peeps! They finally did it—our favorite Easter candies are now sugar-free and taste exactly like we remember. We know your kids will love them too. So load up those baskets sans the guilt.

MUST WEAR

These Boots Are Made for Splashing

April showers bring...fun rain gear! Your kids are gonna jump in puddles—and who'd want to stop them anyway? Keep their feet warm, dry, and looking super-cool with some jazzy boots.
